

<p>Aliens1 (EASY)</p> <p>dependent: number of teeth of an alien</p> <p>independent: weight of an alien</p>	<p>Aliens2 (EASY)</p> <p>dependent: weight of an alien</p> <p>independent: number of teeth of an alien</p>	<p>Shamans (EASY)</p> <p>dependent: number of religious specialists</p> <p>independent: group size</p>
<p>IQ in the guts (EASY)</p> <p>dependent: IQ</p> <p>independent: microbiome (three different types)</p>	<p>Beer and science (EASY)</p> <p>dependent: number of publications per year</p> <p>independent: yearly beer consumption (liters)</p>	<p>Generosity (EASY)</p> <p>dependent: sustenance donated to a food bank (each participant receives 8 kg of dry rice at the beginning of the experiment)</p> <p>independent: gender (introduce as many as you like)</p>
<p>Plants (MEDIUM)</p> <p>dependent: plant height after 3 weeks</p> <p>independent: 2 types of fertilizer and the amount of fertilizer vs non-fertilized control</p>	<p>1 of Big 5 (MEDIUM)</p> <p>dependent: Extraversion</p> <p>independent: sex (male, female), hormonal contraception usage in females</p>	<p>Beards (MEDIUM)</p> <p>dependent: whether or not person grows a beard</p> <p>independent: profession (barista, fireperson, professor) sex age</p>

Butterflies (MEDIUM)

dependent:

UV reflectance (as proportion of wing are that reflects UV)

independent:

latitude and altitude

Imprinting (MEDIUM)

dependent:

eye color of the partner (same as parent / different from parent)

independent:

eye color of the parent (frequencies: black: 0.1, brown: 0.4, green: 0.2, blue: 0.3, note that frequencies in the pool of partners is expected to be the same)pool of partners is expected to be the same)

Conformity (MEDIUM)

dependent:

conformity (score based on yes/no questionnaire of 20 questions)

independent:

least effort distance of birthplace from the nearest origin of cereal agriculture

Coats (HARD)

dependent:

how does participant like the coat on a scale from 1 to 7

independent:

color of the coat (8 different colors), time it took for the seamstress to make the coat, group of raters (fashion professional, layman, blind person)

Pragmatic altruism (HARD)

dependent:

number of coins offered in the ultimatum game from the budget of 100 tokens (only discrete counts and there is an inflation above the middle that represents fair share)

independent:

testosterone level (nmol/litre), sex

Tools (HARD)

dependent:

number of distinct tool-types in archaeological record

independent:

island (4 different islands, each measured in three well-documented consecutive layers), long-distance trade (assessed based on other signs from the archaeological record)

Gods (HARD)

dependent:

recorded presence of a moralizing god

independent:

usage of a script, number of hierarchical levels in the society (1,2,3), European influence (none, some, heavy)

Confrontation (HARD)

dependent:

who won (blue or red shorts, same person occurs in both conditions multiple times in the dataset)

independent:

weight of both fighters (quadratic), height of both fighters (linear)

Press control (HARD)

dependent:

proportion of a page that is text (vs images)

independent:

The Economist Democracy Index of publishers country, cost of color ink in given country, television consumption (hours) of an average person from the country, average education (years)
